Stanford University
Stanford, California 94305

Dear Joshua,

You probably recall our conversation last fall with respect to Dr. H. Umezawa. At that time you agreed to submit without comment, a review of Dr. Umezawa's contributions to a member of the Nobel evaluation group. I am enclosing such a writeup and would appreciate your sending it, if you find it appropriate.

It was good seeing you again last year. I hope all goes well with you and yours and the interval between our meetings will become shorter.

Best wishes,

Sincerely,

Joseph Lein
